

LAW ENFORCEMENT AGENCIES IN NEW JERSEY

**DEPARTMENT OF LAW & PUBLIC SAFETY
OFFICE OF THE ATTORNEY GENERAL**

9-1-1
NEW JERSEY'S 
**EMERGENCY
LIFELINE**

**NEW JERSEY DEPARTMENT
OF TRANSPORTATION**

TO WHOM IT MAY CONCERN

This directory contains the telephone numbers of Federal, State, County and Local Law enforcement agencies operating in the State of New Jersey and some adjacent areas. We have also listed other pertinent telephone numbers for your convenience. We urge you to take the time and read through this directory. We the information will assist you in the performance of your work related activities.

We cannot guarantee the accuracy of this directory and will not be responsible for any damages resulting from errors or omissions.

If you have an emergency and are in need of assistance, please dial 9-1-1.

STATEWIDE TRANSPORTATION INCIDENT MANAGEMENT PROGRAM

The privilege of driving our vehicles on New Jersey's roadways has become a critical part of our everyday lives. However, New Jersey presents transportation concerns unlike that of any other state in the nation. New Jersey, already crowded with more people per square mile than any other state, experiences the greatest amount of congestion. Because we can no longer "build our way out of congestion," we must find a better way to manage our transportation infrastructure in order to "keep the traffic moving."

The effective management of traffic has become a priority for the New Jersey Department of Transportation (NJDOT) and the New Jersey State Police (NJSP). These two state agencies have entered into a partnership to develop a statewide transportation incident management program. Its primary goal "reduce congestion and increase safety on our highways."

Transportation incident management is the spectrum of activities involving the day-to-day operations which include detecting, verifying, responding to and restoring mobility from effects of roadway incidents.

To aid in incident management efforts, the NJDOT and NJSP have developed Incident Management Response Teams (IMRT). An IMRT will respond to incidents, which have an impact on transportation and provide technical, logistical and incident management advisory support to the incident commander (IC). The goal of the IMRT is to keep the traffic moving through increased operational efficiency related to transportation incident management by providing the IC with support, assistance and resources.

IMRT Notification

The IMRT is available on all incidents which occur or have an impact to state and interstate highways and have a duration of three or more hours. The team will be activated by a request from the affected jurisdiction through:

NJDOT Operations North	(609) 588-6211
NJDOT Operations Central	(609) 588-6212
NJDOT Operations South	(609) 588-6213

The following criteria should be used when requesting IMRT assistance:

1. Overturned tractor trailer that causes partial or full lane blockage
2. Transportation incidents involving hazardous materials
3. Incidents that cause damage to roadways or bridge structures
4. Fatalities that cause partial or full road closures
5. The IC request for an IMRT response
6. Anytime there is a need for NJDOT assets for incident mitigation
7. Incidents that impact state highways or interstate highways (i.e, structure and wildland fires, special events, explosions, extended criminal or motor vehicle investigations activities, etc.)

The following information should be given to the NJSP and/or NJDOT when requesting IMRT activation:

1. Type of incident
2. Location
3. The jurisdictional agency
4. Current IC
5. Estimated duration of the incident
6. Resources needed

Any questions regarding this program can be directed to the Statewide Incident Management Coordinator at (609) 530-2523
